Project Name	IOT based smart crop protection system

IBM cloud services Dashboard :

The screenshot displays the IBM Cloud services Dashboard in a web browser. The browser's address bar shows 'cloud.ibm.com'. The dashboard header includes the IBM Cloud logo, a search bar, and navigation links for 'Catalog', 'Manage', and 'Yokesh R's Account'. The main content area is titled 'Dashboard' and features a 'For you' section with several recommended guides. These guides include 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Set up your IBM Cloud account' (Learn how to set up your IBM Cloud account, manage your account settings, organize resources, and control access to those resources), 'Build a web app with Watson Speech to Text' (Deploy a conversational interface compatible with any application, device, or channel), 'Get Started with Watson Studio' (Get started with using AI and Cloud Object Storage in 15 minutes), 'Build a Virtual Private Cloud (VPC)' (Upgrade to a paid account to create your own protected space in the IBM Cloud), and 'IBM Watson Internet of Things Platform' (Communicate with connected devices, monitor and analyze data in real time, connect your own IoT apps and add Watson AI to the solution). Below the 'For you' section, there are four more sections: 'News' (IBM Adds Lifecycle Services to Enterprise Networking and Deepens Strategic Partnership with Cisco), 'Recent support cases', 'Planned maintenance', and 'IBM Cloud status'. The dashboard also includes links to 'Edit dashboard', 'Upgrade account', and 'Create resource'.
